

## Project Update 3/27/26

CR Construction has finished with almost all services on the east side of Sahalee Drive East (two houses closest to the east gate and Sahalee Maintenance Association will be connected later). Today and next week, the crew will be working on the west side of Sahalee Drive East, headed north towards 216<sup>th</sup> PL NE installing services.

The District has distributed door hangers to the 16 houses leading up to 216<sup>th</sup> PL NE. We will continue to notify affected homes in advance if the contractor gets ahead of this schedule.
