

CR Construction has hooked up 88 of the 100 services to the new water main on Sahalee Drive East. CR will be installing the remaining 12 services next week and continue with cleanup and temporary patching of services inside Sahalee between the 2700 block and the East gate. Door hangers have been placed.

They will also have a second crew in Timberline on Monday and Tuesday installing an air/vac at the 20500 block of NE 37th Way. They will prep on Monday and install on Tuesday.
